

Lean Adaptor Pallet

Product description

Designed for safe and efficient truck transport, the Lean Adaptor Pallet bridges the gap between internal and external logistics.

It ensures maximum fit of the goods on the pallets and consequently, the fit of the pallets onto a truck. The Lean Adaptor Pallet simplifies fork lift loading of the Lean Dollies into trucks and maintains efficient wheeled logistics in destination, whether it is a Tier-2, Tier-1 or OEM Lean manufacturing plant.

Lean Dollies can be easily rolled in and out from the pallet by hand.

Benefits

- Improve work flow
- Reduce handling costs
- Enable reduction of stock level
- Reduce need for floor space
- Improve ergonomics
- Fast and safe truck loading
- Optimize vehicle fill

Lean Adaptor Pallet

Lean Adaptor Pallet

External dimensions 1200 x 800 x 120 mm
